Question 1: Do you believe that the uses listed in this section (Section 3) are possible candidates of the 872/917 MHz bands?: 
Yes 
Question 2: Are there additional applications/services (not listed above (from Section 3) that could make viable use of the 872/917 MHz bands that Ofcom should be aware of?: 
Wireless connected retail and office signage to be allowed to use 917-921MHz 
Question 3: What services do you believe should be authorised to use this band? Could you supply relevant information supporting your preference and
include any economic data relating to the value of the spectrum in providing these services?:

Low bandwidth data

**Question 4:** Do you agree with the methods used to assess the potential to interfere with adjacent band services in a full licensed approach?:

Yes

**Question 5:** Do you consider that the proposed technical licence conditions would be justified and appropriate?:

Yes

**Question 6:** Do you agree with the methods used to assess the likelihood of services interfering with adjacent band services under the light regulatory approach?:

Yes

**Question 7:** We would like stakeholder views on the cost and performance impact of the UMTS900 filters described above.:

Not a stakeholder in this area

**Question 8:** Are there any other methods that would give the same protection as the filters? What costs and performance impacts would these have?:

Not a stakeholder

**Question 9:** What are your views on the need for and justification of such mitigation measures and how their cost should be borne?:

Not a stakeholder

**Question 10:** Stakeholders views are sought on whether the spectrum should be awarded as a single lot by frequency, or whether it should be split into smaller frequency lots.:

No preference

**Question 11:** We would like stakeholder’s views on whether the packaging should be split GB/NI or if we should proceed with UK wide packages.:

No preference
Question 12: Would it be practical for RFID users and adjacent operators (e.g. GSM, UMTS, GSM-R) to co-ordinate locally on a case by case basis? The answers to this will help Ofcom develop its views on whether a database would be required.

This would not seem practical due to the large number and diversity of RFID users

Question 13: Do you agree with Ofcom’s preliminary proposal that the separation distances suggest a light licensing regime if SRD/RFID use in this band were to be supported? If not, how should the interference into adjacent bands be managed?

I agree
